

The challenge

They needed an SR1 thin floor finish, but there was no insulation on the project.

The solution

Gyvlon EXCELIO liquid screed was an ideal screed for this as the screed depth is ultra thin (12 to 20mm)

Results

This gave an excellent SR1 floor finish.

Carolyn House

Type of Project:

High-rise Apartments

Date:

16th July 2018

Location:

Croydon House, Surrey

Applied m²:

25,000 m²:

Technology applied:

Gyvlon EXCELIO

Substrate:

15mm Fully Bonded

Screed supplier:

Tarmac, Silvertown

Screedlayer:

TCS
